

Our Prints

Printed on demand direct to your home or office

Your orders are printed on demand using top of the range digital printing facilities in the UK. We love this process as it helps us to minimise waste and stock build up.

What you see on our website are 600px images of the super high resolution files we have lovingly stashed away to protect the artist's copyright.

We print using industry standard, high resolution Giclée equipment with the capability to create beautiful high quality prints up to A1 (594x841mm). Some of our prints are editions that are printed by our artists and are only available in set sizes. Please refer to the product information for a correct size measurement.

Our prints are printed with a giclée printing process on 210gsm acid free archival paper to ensure fine art quality and longevity from fading. Our paper and wood are both supplied by FSC accredited sources.

We use 210gsm acid free archival paper, which includes a 70 year guarantee. We print with a 2cm - 3cm approx border around each design this may sometimes vary depending on the design. Our print on demand range comes in the following sizes which are based on the actual paper size:

| Dimensions of print | Price | Dimensions of print | Price |
|---------------------|--------|---------------------|--------|
| A3 297mm x 420mm | £19.95 | 500 x 500 mm | £29.95 |
| A2 420mm x 594mm | £29.95 | 500 x 700 mm | £49.95 |
| A1 594mm x 841 mm | £59.95 | | |
